

COOKIE POLICY

This cookie policy is issued pursuant to art. 13 of the EU Regulation 2016/679 (hereinafter, "**GDPR**") and in accordance with art. 122 of Legislative Decree no. 196/2003 (hereinafter, "**Privacy Code**") and with the Provision of the Italian Data Protection Authority of May 8, 2014, "Simplified Arrangements to Provide Information and Obtain Consent Regarding Cookies" (hereinafter, "**Decision**"), as in accordance with the GDPR.

➤ Identity and contact details of the Controller

SABAF S.p.A.

Via dei Carpini, n.1 - 25035 Ospitaletto (BS)

Telephone: +39 030 6843001

E-mail: dataprotection@sabaf.it

➤ What are cookies?

Cookies (or markers) are small text files created by the web server on the user's device when the user accesses a specific site for the purpose of storing and transporting information. These markers are sent from the web server to the user's device (usually to the browser) and stored so that they can be recognized at each subsequent visit. The cookies, in fact, at each subsequent visit are resent from the user's device to the site.

First-party and third-party cookies

Cookies can be installed not only by the same operator of the website visited by the user (**first-party cookies**), but also by a different site that installs them through the first site (**third-party cookies**) and that is able to recognize them. This happens because, on the visited website, there may be elements (e.g. images, maps, sounds, links to web pages of other domains, etc.) that reside on servers other than the one used by the visited web site.

Technical, analytical and profiling cookies

According to the purpose, cookies are distinguished in technical cookies and in profiling cookies. **Technical cookies** are installed for the sole purpose of "*transmitting a communication through an electronic communications network, or to the extent strictly necessary for the provider of an information society service to provide such service based on an explicit request by a subscriber or an user*" (see art. 122, Privacy Code).

They are usually used to allow efficient navigation between web pages, to store user preferences, to store information on specific user configurations, to authenticate users, etc.

Technical cookies can be divided into *navigation cookies*, used in order to record data useful for normal browsing and use of the website on the user's computer (allowing, for example, to remember the preferred size of a web page in a list) and *functional cookies*, which allow the website to remember the choices made by the user in order to optimize its functionality (for example, functional cookies allow the site to remember the specific settings of a user, such as country selection and, if set, the status of permanent access).

Some of these cookies (called essential or strictly necessary) enable functions without which it would not be possible to carry out some operations.

Pursuant to the aforementioned art. 122, prf. 1 of the Privacy Code, the use of technical cookies does not require users' consent, instead it requires the obligation to properly inform users.

Pursuant to the Decision, technical cookies are assimilated to the s.c. **analytics cookies** if they are:

- i. created and used directly by the first-part web site operator (without, therefore, the intervention of third parties) for the purpose of optimizing the same to collect aggregated information on the number of users and how they visit the site itself, as well as
- ii. created and made available by third parties and used by the first party web site for mere statistical purposes, if appropriate tools are adopted to reduce their identifying power (for example, by masking significant portions of the IP address) and if their use is subject to contractual obligations between the first-party and third-party web site managers, expressly referring

SABAF S.p.a.

Via Dei Carpini, 1 - 25035 Ospitaletto - Brescia - Italia

Cap. Soc. Euro 11.533.450 int.vers. - Reg. Imp. di Brescia N. 52821

Tel: +39 030 6843001 - Fax +39 030 6848249 - info@sabaf.it - sabaf@legal.sabaf.it - www.sabaf.it

to the commitment of the third party or using them exclusively for the provision of the service, to keep them separately and not "enrich" or "cross-check" them with other information at their disposal.

I Profiling cookies are used to track user navigation, analyze their behavior for marketing purposes and create profiles on their tastes, habits, choices, etc. in order to transmit targeted advertisements in relation to your interests and in line with the preferences expressed by these in the online navigation.

These cookies, pursuant to the art. 122 of the Privacy Code, can be installed on the user's terminal only if he/she has given his/her consent with the methods indicated on the Decision.

Persistent and session cookies

Based on their duration, cookies are distinguished in persistent cookies, which remain stored until their expiration, on the user's device, except in case of removal by the latter, and in session cookies, which are not stored permanently on user's device and they disappear when the browser is closed.

➤ **What kind of cookies are used by this web site?**

➤ **Technical cookies**

This web site uses technical cookies, installed by the web site in order to ensure and to monitor the operation of the web site itself, to allow efficient navigation and usage of the its content and services when requested by the user.

These are cookies that, for example, allow the recognition of the selected language and the country from which you connect to this web site. These cookies, by recognizing you when accessing the web site, prevent you from having to enter your data each time. For example, if you have selected items for purchase in the shopping bag but you do not complete the purchase, you can resume and finalize the purchase the next time you return to visit the web site.

This type of cookie cannot be disabled and for their installation is not required users' prior consent is not required pursuant to art. 122 of the Privacy code and based on the Decision.

Here below, for each technical cookie used, name, purpose of use and duration information are reported:

Technical name	Description	Purpose of data processing	First/Thirdy part ownership	Duration time
SESS...	Automatic cookie t based on the programming language used for the project	It avoids to authenticate multiple times during a single browser session	SABAF S.p.A.	20 days
JSB	The cookie records the site page the user is browsing on the web site.	It's updated each new page viewed.	SABAF S.p.A.	2 minutes
cookie-agreed	Acceptance cookie	This cookie record the user consent to accept cookies for this website.	SABAF S.p.A.	60 days
has_js	Javascript active	It enables the web site environment to undertand how work the browser javascripts	SABAF S.p.A.	Until the browser closure.

➤ **Analytics cookies**

The web site uses analytical cookies created and made available by third parties (and in particular, Google) to statistically analyze the accesses or visits to the web site, allowing the controller to improve the structure, navigation logics and content and to collect information on web site usage.

For more details and information, please visit the following link:
<https://support.google.com/analytics/answer/1011397>

SABAF S.p.a.

Via Dei Carpini, 1 - 25035 Ospitaletto - Brescia - Italia

Cap. Soc. Euro 11.533.450 int.vers. - Reg. Imp. di Brescia N. 52821

Tel: +39 030 6843001 - Fax +39 030 6848249 - info@sabaf.it - sabaf@legal.sabaf.it - www.sabaf.it

These cookies, appropriately anonymized (through the masking of significant portions of the IP address), allow the collection of aggregate information on the number of users and how they visit the web site without being able to identify the single user.

For more details and information, please visit the following link:
<https://support.google.com/analytics/?hl=en#topic=3544906>

You can disable Google Analytics cookies by downloading a specific browser plug-in available at this link:
<https://tools.google.com/dlpage/gaoptout>.

Here below, for each analytics cookie used, name, purpose of use and duration information are reported:

Technical name	Description	Purpose of data processing	First/Thirdy part ownership	Duration time
__utma	Google cookie	It's used to distinguish users and sessions. The cookie is created, if not already existing, at the execution of the JavaScript library. The cookie is updated every time data is sent to Google Analytics	Google Analytics	2 years
__utmt	Google cookie	It records the request rate.	Google Analytics	10 minutes
__utmb	Google cookie	It records a new visitant.	Google Analytics	30 minutes
__utmz	Google cookie	It stores the traffic source or the campaign that explains how the user has reached the site. The cookie is created when the JavaScript library runs. It is updated every time the data is sent to Google Analytics.	Google Analytics	6 months

➤ **Profiling cookies**

No profiling cookies are used on this website.

➤ **What are the legal bases for the processing activities?**

The legal bases for the processing divided by type of cookies are reported here below:

- **technical navigation and functionality cookies:** performance of a contract to which you are a party: user's request to access and enjoy web site contents;
- **analytics cookies:** legitimate interest.

➤ **Modalities for managing cookies use options**

Since this web site does not use profiling cookies and analytics cookies are anonymized, the banner containing the brief information that allows consent to use cookies is not present on the site.

The user has various options in order to browse without cookies as described here below: <https://www.garanteprivacy.it/cookie>.

In particular, users can still express their cookies options also through the settings of the browser used. By default, almost all web browsers are set to automatically accept cookies, but users can change the default configuration using the settings of the browser used, which allow to delete and / or remove all or some of the cookies, block the sending of cookies or limit them to certain sites. Disabling, blocking cookies or deleting them could compromise the optimal use of some areas of the web site or prevent certain features of the same, as well as affect the functioning of third-party services. The configuration of cookie management depends on the browser used. The following links provides you with cookies management option for the main web browsers:

- **Microsoft Internet Explorer**
- **Google Chrome**
- **Mozilla Firefox**
- **Apple Safari**
- **Opera**

For browsers other than those listed above, it is necessary to consult the related guide to find out how to manage cookies.
