

# Sabaf brings the Italian innovation to China

editorial staff 17 October 2018

12 0

**Sabaf** is participating in the **China Import and Export Fair** (Guangzhou, 15th-19th October).

Now in its 124th edition, the so-called Canton Fair is an important global event in the machinery and new technologies market and Sabaf is one of the few Italian companies that take part in the event. During the fair, Sabaf

**presents the full range of its products and also new products resulting from Group's latest acquisitions.** The Italian ARC and the Turkish Okida have joined the Italian multinational, completing the brand's offer. **ARC** is recognized as a reference manufacturer on the international professional cooking market for quality and performances. **Okida** designs, manufactures and sales electronic control boards, timers, display and power units for ovens, hoods, vacuum cleaners, refrigerators and freezers. With this step Sabaf entered a new but complementary sector.
